# Most Modern Power in any Truck! New Chevrolet Task-Force Trucks!

Shortest stroke V8's of any leading truck. The industry's most advanced Sixes! You get the most Modern power for your job with new Chevrolet Task-Force trucks!

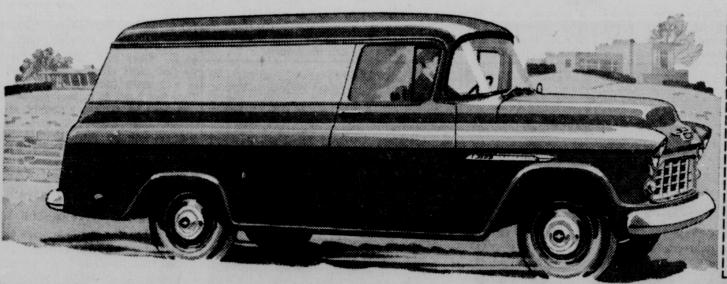

## Most Modern Engines V8 or 6

Shortest stroke V8's in any leading truck! That means less friction and wear per mile! V8 is standard in the new L.C.F. models, available in all other except Forward Control models as an extra-cost option. New Chevrolet trucks offer the industry's most advanced valve-in-head sixes, too. And all engines are sparked by a 12-volt electrical system for quicker starting and smoother going!

## Most Modern Styling

New Chevrolet trucks are the only Work Styled trucks, with a fresh, functional appearance that's tailored to the job! Two distinctly different styling treatments are offered-one for light- and mediumduty models, another for heavy-duty models. Your new Chevrolet truck will not only do your job better, it'll look better doing it! And what an advertisement it will be for you and your business!

Drive with care . . . EVERYWHERE!

## Most Modern **Features**

New Flite-Ride cab with panoramic windshield, concealed Safety Steps and new High-Level ventilation! New, more rigid ladder-type frames in all models! New tubeless tires standard on 1/2-ton models! New shorter wheelbases for greater maneuverability in most models. New suspensions for a smoother, load-steady ride! Come in and see all the modern features that put you ahead!

## No Doubt In His Mind This Time!

This happy gentleman has just taken title to his seventh motor car.

And while he would probably have difficulty recalling all the different makes and models he has purchased through the years, there is one thing he knows with absolute certainty: He never felt like this before when he took the keys and made for the open road.

For this is his first Cadillac! And what a glorious feeling it is to know he has chosen the "car of cars"! Gone are the doubt . . . and the worry . . . and the

wonder. This time he knows he's right! And how quickly the evidence will assemble in support of his sentiment!

First of all, there will be the eloquent testimony of the car itself—its magnificent performance . . . its marvelous comfort and ride . . . and its incredible ease of steering and handling.

And then, as he travels the boulevard, there will be those quick glances of approval from his fellow motorists to tell him that he is not alone in his judgment.

And, finally, there will be that assembly of family and friends that awaits him at journey's end . . . offering final confirmation of the wisdom of his choice.

Of course, the man who takes title to a new Cadillac today enjoys the double satisfaction of having made the wisest possible choice at the wisest possible time.

Because of Cadillac's increased year-end production, for instance, he will find that he can have surprisingly prompt delivery on his new Cadillac.

And, as if this were not sufficient in itself, we are also in a position-because of our low inventory of used cars-to offer him a most generous allowance on his present automobile.

Why not come in soon—and spend an hour at the wheel-and let us acquaint you more fully with this unique opportunity?

MARISSA, Ill. (A) - Three persons, including a man and his wife, were killed early Saturday in a head-on auto collision three miles south of Marissa on Highway 13.

The victims were John Wekley, 29, and his wife, Eva, of Fayetteville, Ill., and Dale Millsap, 17, of Murphysboro, Ill.

Critically injured in the accident was Opan Marie Spinney, 33, also of Favetteville, a passenger in the Weekley car. She was taken to a Red Bud hospital.

State police said the collision occurred on a curve. Millsap was alone in his car.

If God heeds the prayers offered by sinful mortals in behalf of one another, how much more surely will he listen to his friends, the Saints in Heaven, who are in a position to know the needs expressed in our prayers to them? If the individual appeal "of one for another" is heard in Heaven, how much more certainly will God hearken to the swelling chorus of prayer rising up from the "communion of the faithful" in Heaven and on earth? And if the Saints in Heaven are not concerned for us. why should there "be joy in the presence of the angels of God over one sinner that repenteth" (Luke

Columbia, Missouri has been having airport trouble, a different kind from Sedulia's but similar enough to serve as an example of what might be avoided if we ever start expanding the port east of town to accomodate commercial lines.

For years Columbia has been adding piecemeal to its municipal airport to comply with demands of commercial lines. All at considerable expense. The company that had been regularly servicing the University City cut off this summer-another in a series of interrupted service. This time over landing strip hazards. So Columbia is building more landing strips to satisfy the airline in an effort to recapture service that since has been diverted to the new Jefferson City

Way back maybe 25 years ago Columbia started doing what Sedalia has been doing of late-building municipal airports piecemeal, putting a lot of money into the improvement and coming up with something that is outdated before the concrete hardens. Even the so-called experts in aeronautics seem to give bum steers.

Sedalia hasn't quite grown up to the position of having established airport facilities which might be used by a commercial line. But Columbia did so long ago-and has had recurring headaches ever since because of inadequate planning ahead. Now, after hundreds of thousands of dollars have been spent on the Columbia field, the city is again without commercial service.

This rather ridiculous impasse prompts the Columbia Tribune to suggest a real survey of the situation is long overdue. And that's what Sedalia ought to have in connection with its Municipal airport—a REAL survey before we start pouring more money down gopher holes. Sedalia should profit by Columbia's experience.

The Trubune editor has this to say

besides spending money? Are we building a longer and longer runway we won't need because helicopters or planes with lower landing speeds will be taking over air travel situations like ours, or should we be building them longer because planes of the type Ozark is using are going out of the picture and larger and more economical ships will be moving in, requiring larger paths for landing and take-off?

"We suggest that a real survey of have been playing for nearly 30 years.

"Perhaps the advice could come from some airline executives operating far enough from the scene to have no particular interest in the matter other than the general development of air traffic. Perhaps it could come from consulting engineers. Or perhaps it could come from Washington officials. Perhaps it could come from educational institutions which have faculties trained in this field. Perhaps a little f it could come from each of these sources. And perhaps it could help us get out in the daylight and stop fumbling our money away in the dark. It might cost us a lot of money-but it might get something done.

If a physical cause cannot be found (which is usually the case) these things must be considered as nervous habits. Under such circumstances they result from unhapppiness, overexcitement, lack of love from the parents, or similar emotional causes. It is wise to make an offort to try to find out what these causes may be, and then to attempt to rectify them. A calm environment will usually result in their disappearance in time.

KANSAS CITY, Sept. 10 (A) -Rugged scrimmages under game Cubs played to a 3-3 tie in the conditions prevailed over the Big season's last meeting between the Tucker, Dies Seven today as five of the conference's members geared for season football openers next Saturday. Only Oklahoma and Colorado rated 1 and 2 respectively in the titular chase by the guess experts, won't be playing next Saturday, but there was full speed activity in both of those camps today. The opening games promise especial trouble for four teams.

Coach Don Faurot's Missouri Tigers, crushed 74-13 by Maryland In their last game in 1954, will host the Terps at Columbia.

Kansas' Jayhawks, who were winless in their first season under Coach Chuck Mather last year, will go against Texas Christian University at Fort Worth in a night game. TCU won last year,

Non-Scheduled Tilt Played At Javnes Stadium Friday

The Smith-Cotton Tigers in a practice session with the Marshall Owls, Friday afternoon, lost the non-schedule title 6-7. The teams got together on the Jennie Jaynes stadium gridiron.

In scrimmage the Tigers didn't show up any too good, something which apparently is puzzling the Smith-Cotton coaching staff. ## Sports Scraps

I am beginning to wonder if Coach Ralph "Stub" Dow should not have brought out the "crying towel" for the 1955 football season. From workout appearances at the Smith-Cotton training gridiron, it appeared as if the boys might not be working rather hard and turning an attentive ear to the coaching staff. But a practice session over at Marshall appears on the surface still a lot to be learned.

high school football season.

Now taking on the Marshall Owls for a practice workout might have been all right if it hadn't turned out the wrong way. Marshall scored seven points on the Tigers whose score was naught.

This brings back memories when Marshall was in the Big Seven Conference along with Sedalia, Independence, Odessa, Higginsville, Slater, and Lexington. Those days it was rough and Sedalia wasn't any better than any of the others until later years when Smith-Cotton began to grow and Sedalia became a "big town" team along with Independence. The old conference busted up and then Sedalia joined the Central Missouri Conference.

From sideline reports Marshall's Owls should be in a conference along with Sedalia. Marshall, when it was in the circle of a bad few seasons, thought the Tigers a little too good for them. I wonder now if the circle might not have started on the upgrade and they should be hunting some stiffer competition.

The Tigers open the 1955 season Friday night against a team which is considered much stronger than any in this area, the St. Joseph Central high school and it is on the latters gridiron. Then on Friday night, Sept. 23 they open their first home stand meeting another "toughie" in the Springfield (Mo) Central high school.

## Today's Poem

LITTLE THINGS

The little things we do each day As we go swiftly on our way, Can mean so much, we never know What we have done as on we go -Just what a smile or wave might mean To someone 'long the way we've seen, We never realize a small deed

Is just the thing someone might need, A deed that hasn't any cost May bring back faith someone has lost,

A few kind words may comfort bring Or make again a heart to sing, A little unexpected gift

A friendly pat upon an arm It seems can have a lot of charm. A little note-words may be few-But what a lot of good they do, A compliment paid to someone

May give a person quite a lift,

For something nice that they have done, Those little things that seem so small Are things that seem to touch us all, No matter who, nor what our plight 'Tis little things that bring delight,

Strangely it's little things we do That always seem to hurt most, too, Sharp words that no one can afford May sever friendship like a sword, Thoughtless words or words unkind

Can linger long in someone's mind. The things we hear and then repeat To everybody that we meet, So oft' untrue and if they're not Those little things are best forgot, Dishonest deeds, perhaps quite small,

Should never have been done at all, But always there is left a doubt Of what you might next be about, A taunt remark, a jesting phrase, Works just the opposite to praise But it's remembered just as long

In bitterness and feeling strong, The little things-the good-the bad-Can make folks happy, make them sad. For mostly it is little things Responsible for joys or stings. So watch the little things each day In what you do and what you say,

For always you are sure to find That little things bring peace of mind, Or leaves a feeling that annoys For little things, too, just destroys Life's beauties and will seem to smite

Peace with regret when comes the night.

## New Fall Footwear for Active Women, Endowed With Fashion's Smart Features

general leads an active life. Where she used to look with

envy at the smart high-heeled shoes which didn't meet her scheme of things, now she has the widest choice in smart new shoes, flattering to the foot, easy on the eye, suited to every occasion. She will find new looking pumps

for her tailored suits, pretty dress! shoes for afternoon wear, casuals in the softest of grain leathers or polished calf for country weekends, shopping or driving her car.

Designers have really created a shoe wardrobe for the active life of today, when foot comfort plus fashion is essential to an army of women the country over.

For country wear, high colors and unusual leathers are a feature. There are shag leathers in brilliant colors to match her sweaters; 'kafalope," a satin-smooth suede that dyes in vivid shades; grained leathers in interesting and unusual textures and colors in medium heels for town and country wear.

## 'Dress Up,' Is Rule Among Younger Set

Children's shoe fashions are really stepping out this Fall, keeping right in step with the important trends in grown-up shoe pat-

The new look is the slim loook, which dominates the picture for men and women. In the new softer, lighter tannages it is adapted to comfort as well as good looks. It's apparent in shoes across the board - for school, play and party wear.

For boys as well as girls.

A feature of the new look is the slimmer toe, sometimes really pointed in shoes for dress-up wear.

Leathers, whether they be kidskin calf, patent or grain are softer, more supple - a far cry from the heavy leathers which used to make the "breaking in" of school or play shoes a painful

Colors are really going to town, reflecting important trends of the season. Of course we have black Valley. patent, strong as ever. And the tans, browns and navy blues. Red is there, with the preference going to Cherry for Fall.

But after these basics, the sky is the limit. Lustre leathers are pretty is a new blue, that's perfect with pastels, soft blues, mauves and lilacs for dancing school wear.

Avocado, which has scored a hit with women, now makes some smart shoes in aniline or lustre calf. And copper, in lustre, patent and aniline has a new autumn

Boys go along with men in preferring their fall shoes in black, dark brown, charcoal brown and cordovan tones. They also like the lighter golden browns, important in the grains and shrunken leathers for more casual wear.

More girls, both big and little, are now asking for pumps, either plain or with touches of decoration. They feel it has a grown-up look. Femme.

The strap shoes have a definitely new look. They're lighter. Multiple straps and intricate design have given way to simpler, smarter treatments of one and two strap patterns, with an occasion T strap or ankle strap. The one-strap shell is a hit, combining the look of pump and strap shoe. And of course the Mary Jane goes on especially with the kindergarten

For sweater wearers, there's the sweater pump that slips on like a glove. And the pump or strap shoe with peaked vamp is a fashion item.

Borrowed from the boys are the two-eyelet low-line oxfords, in soft, smooth and textured leathers, smart indeed with her Black Watch plaid school outfit.

Boys go along with their dads in demanding semi-low and lowline oxfords, in both two-eyelet and more conventional four and five eyelet patterns. They share his fondness for the tassel moc which they have a tendency to use for everything including dancing school. They're devoted to loafers, especially with the new higher vamp line, and cushion or welt

In general, the shoe story for boys and girls alike is one of dressing up rather than down. The sloppy look is out. The smarter, trimmer, neater look is in. Which should be a delight to parents and teachers alike.

## U. S. Shoe Leader

The Shoe Industry of the United States will produce 550 million pairs of shoes this year, for a new record. This is more shoes than is made by any other nation in the world.

## Black Leads In New Shoe Color Story

Color early, black all the way. That's how the shoe picture lines up for Fall. Early in the season is the time for tweeds and jerseys, for flannel skirts and colorful sweaters. It's the time to pick up the new shoe fashions that add smart foot-notes to well-selected casual and street costumes.

There's news in color-plenty of it-and at prices to appeal to every pocketbook. The browns are there, of course, with a wider range than usual to choose from. Staple benedictine and honey tones go on but get a new look with antique finishes. They're smart in

The amber brown and wood ones in both aniline and smooth leathers promise to be very popular. These members of the warm brown family have a happy faculty of harmonizing with many woolens. They carry nice names, too, such as Briarwood, Ceylon and Antique Amber. They're smart in luster finshes in tawny and coppery tints. A highlight with tweed is the

For less formal wear, corduroy, both plain and printed, often with contrasting leather trim makes a practical house shoe.

The soft kidskins can be both feminine and tailored. They come in a host of flower pastels, in quilted scuffs or flower trimmed slippers that copy little girls' party shoes. Gold and silver kidskin in tailored slippers have the happy faculty of going with any at-home costume.

Clear Vinylite, like Cinderella's glass slipper, is glamorous, especially with touches of gold or silver trim. And on the formal side are mules or slip-ons of velvet combined with gold or silver kid, and brocades in polka dots or small flower patterns.

A new departure is the strapped shoe which still maintains the popular moccasin treatment but can serve for almost any daytime wear.

A nice little heel, a trim tailored buckle, stitching that's decorative but not too heavy, and some touch of decoration on the vamp makes this type of shoe a happy addition to any junior wardrobe.

There are new tricks in this field. Kilties have been enjoying a run with the grade school age. They're still a popular feature. But the detachable kiltie tongue can give you two shoes for one which is a feature any youngster can

There's no breaking-in for this type of shoe. New tannages and good lasts have taken care of that. Smooth or semi-smooth, shrunken or grained, the leathers all have the same luxurious soft touch for young and growing feet.

The low-line and the narrower look make shoes of this utilitarian type more flattering.

There's a wide choice of colors. Reds and browns have always been popular colors for school wear. But the news is in the softer tones, more muted tans, camel and vicuna shades, black, warm browns and the deep charcoal browns.

In these smart colors, someone's sure to ask "Where did you get those shoes?"

dous part in your wardrobe. Not only should they be the right color to go with your outfit, but the correct type. Each season new colors and styles appear and of course we want them, but first make sure you have use for them. Avocado continues to be an important colorfrom flats on through heels. Charcoal in polished calf is beautiful and is being shown in the more dressy type. Of course, black and deep brown are always important and a varied number of new styles are always shown. Soft honey. caramel and other creamy shades are being shown in heels and can be worn with a number of colors so if they fit into your wardrobe get them. For the young set there are flats in all shades of suede that can be perfectly matched with sweaters. It makes a smart outfit as well as something different When you select your shoes be sure they fit and that they are the type you need. Also select a purse that matches. Having your purse and shoes match is a very important factor in having a smart outfit. Buy the best shoes and purse you can afford and plan to use them with several outfits. An-

other tip - take care of them. Clean them often, keep the heels in good repair and walk properly so they will hold their shape.

CLIPPING HIMSELF-The price of a haircut in Chicago is going up, up and up to \$1.75 on weekdays and \$2 on Saturdays. but that doesn't worry this youngster. He's joining the do-ityourself movement, as are other Chicagoans, according to cutlery stores reporting greatly increased sales in home-barbering kits.

HOLLYWOOD (P-One of the new shows entering the fall TV sweepstakes is an item called Crusader. The title role is not played by a knight in armor, but by a free-lance writer in a business

The crusader will be Brian Keith, the handsome actor who made a hit in the movie "Tight Spot," He'll play a magazine author who roams the world in search of stories about refugees and displaced persons.

Producer Dick Lewis admits it is unusual, but he thinks the public will go for the idea.

"I think there has been a growing acceptance for drama with a documentary flavor," said Lewis, a young veteran of the radio and TV scene. "You see that in movies like 'On the Waterfront,' which was semi-documentary in treatment. And you see it in TV shows like Dragnet and Medic.

"We have a wealth of material to choose from. Some of our stories concern escapes from Iron Curtain countries or Russia itself. Some are about people who are removed from their homes. There is a great deal of excitement in such tales.

"There is the added quality of reality. All of the stories are true. We have gotten wonderful cooperation from governmental agencies, religious groups and other organizations that deal with refugees.

"I think this show can do a lot of good in this country. After all, we will be letting 250,000 persons into this country by the end of 1956. It is important that we know their problems.

The filmed show will appear on CBS Friday nights. Incidentally this may be an indication of TV's power: Brian Keith has a twopicture-a-year deal with Columbia Pictures, but the Crusader series takes priority on his services.

### Indict Four Men After Incident At Westinghouse Plant

KANSAS CITY P-Four union men were indicted by a Jackson County grand jury Friday on charges of common assault and malicious destruction of property during the recent nine-week strike at the Westinghouse aviation plant.

The men were James Logan, 34; Carl Brandwein, 28; James Swagert, 30, and A. J. Williams, 31, members of CIO United Auto Workers Local 324.

They pleaded innocent at their arraignment and were released on bonds of \$2,000. The charges against them are misdemeanors.

The grand jury said both management and labor witnesses were reluctant to testify after the strike was settled

Others indicted by the grand jury included Kenneth Don Hood, 20. and Charles William Ayers Jr. 26, both of St. Louis. The two were with intent to kill, and first degree robbery. They are accused of 8. Both are in jail.

## Distributor Rotor 'Bought' in a Hurry

TULSA, Okia. P-Lavon Stanbery, service manager for a local automobile agency, said mechanics working with a new car couldn't start the engine. After several attempts including putting gasoline in the tank, they looked under the hood.

There they found wrapped around a wire leading into the distributor were two one dollar bills. Further examination showed the distributor rotor was gone, apparently "bought" by someone in a hurry.

Stanbery, "is due some change.

### Mower Shoots Pipe Into Office Window

KANSAS CITY (A)-A power lawn mower sheared off an inch-long piece of pipe and shot it through an office window, narrowly miss ing a woman Friday.

The missile crossed 90 feet o lawn, smashed through the window, sped 65 feet across a Bureau of Internal Revenue office, made a deep dent in a door casing and bounced 15 feet back into the of-

Mrs. Jessie Harris, one of eight in the office, said it ruffled her hair as it passed. "It sounded like a shot," she said.

First commercial telephone exchange in the United States was opened in New Haven, Conn., on Jan. 28, 1878.

Burt Lancaster as a shy mountaineer and Diana Lynn as an equally shy school mar'm are co-starred in the new Cinema-Scopt frontier adventure, "The Kentuckian," starting today at the Fox Theatre. Filmed in Kentucky in Technicolor and with stereophonic sound, "The Kentuckian" also features Dianna Foster, John McIntire, Una Merkel, John Carradine and John Litel.

Regis Toomey and Gary Merrill seek facts in a murder case from strip tease dancer Jan Sterling. "Get out of my dressing room," she orders in a tense moment from "The Human Jungle," currently showing at the Uptown Theatre. The second feature of this twin bill of fare is those ever lovin' Bowery Boys in their latest venture as detective in "The Spy Chasers.

Frontiersman Alan Ledd a Northwest Mountie out of uniform discovers fugitive Shelley Winters following an Indian attack and disarms her. The two are co-starred in "Saskatchewan." A Technicolor production filmed entirely in the Canadian Rockies. This great outdoor drama starts Tuesday for 3 days at 50 Drive-In
